Dear Joseph Case Junior High School Families:

Every year, each public school and school district in Massachusetts receives a report card. Just as your child's report card shows how they are doing in different subjects, the school's report card is designed to show families how our school is doing in different areas. A link to our school's report card is available at [Case Junior High School Report Card](#). A link to this report is also available on our website.

The report card includes multiple measures of a school's performance – more than just MCAS scores. It represents a new way of looking at school performance, by providing information on student achievement, teacher qualifications, student learning opportunities, and more.

Report cards are designed to be useful tools for everyone connected to our school. Families can use the information to have meaningful conversations with us about what the school is doing well and where there is room for improvement. Community and education leaders can use the information to better understand how to support students and our school.

You will notice on our report card that we continue to make strides in math, ELA, and science achievement. To improve student performance in our school, we have implemented new math curriculum materials in all grades corresponding to the Massachusetts Curriculum Frameworks, including a strong digital component. We continue our focus on writing across the curriculum and are again engaged in year-long professional development in English language arts. Our use of available technology continues to increase as each of our students, while in school, has a Chrome Book for use throughout the school day. We continue to search for new and innovative ways to help our students improve in all subjects.

If you have questions about our school's report card, would like to become involved in school improvement activities, or would like to request information about the qualifications of your child's classroom teacher, please contact us at any time. To see our district's report card or to search for other schools' report cards, visit <https://reportcards.doe.mass.edu/>

We encourage you to become involved in helping us improve our school. We see families as critical partners in the success of our students and school, and we are grateful for your continued support. For more information about what we are doing to improve student achievement or to request information about the qualifications of your student's classroom teachers, please feel free to contact us at any time.

Sincerely,

Robert F. Silveira

Robert F. Silveira, Principal

Cc: John Robidoux, Superintendent of Schools
Elizabeth White, Assistant Superintendent
